Contribute your ideas to the vision for a renewed
Westgate Avenue Streetscape

Westgate/Belvedere Homes Community Redevelopment Agency

WESTGATE AVENUE STREETScape COMMUNITY DESIGN CHARRETTE

The Charrette process is a way for residents, business, and property owners to get involved in planning for change in their community. The Charrette will examine existing land use, characteristics of the built environment, existing roadway conditions, traffic patterns, pedestrian connectivity and accessibility, and the potential for economic development. Please join us for this two-part Charrette. Your ideas will contribute to the creation of conceptual designs for a Westgate Avenue Corridor Streetscape Plan.
